Dungeons & Dragons Ultimate Collector's Checklist

Fixed by Kritter007 © 2003, version 2.0

Well met and welcome to the Ultimate Collector's Checklist!

I made this checklist for myself to keep track of what TSR products I own. Many times was I in the position to photocopy ("Xerox") a module or booklet that the owner didn't wish to sell. So gradually my collection expanded with not only genuine products but also with photocopies. Since the coming of the officially digitized classic products (PDF) it is even harder to keep track of what product you own in what format.

With the Ultimate Collector's Checklist you will be able to sort your whole Dungeons & Dragons collection, no matter what the format is!

For those out there who haven't got a clue, here's how to use the Collectors Checklist:

TSR-Code : The product's publishing code

Sub-Code : When a product belongs to a specific group of products it carries this code

Title : The product's title (dah!)

Hardcopy : Check this if you have the original item

Copy : Check this if you have a copy (Xeroxcopy for instance) of the original product

PDF : Check this if you have a digital copy(.pdf/.doc/etc.) of the original product

HINT: you can even write down the number when you own more than one copy of a product ;)

Note: Some Checklist's Do not have the Subcode / Hardcopy / Copy / Pdf Area's

Special Shout out & a Special Thanks to the following for their checklists as if it wasn't for them wouldn't have them to view and Help out our Personal Collection's: Richard, The Araeum Library

If you think any items are missing, please mail me at Squirreii@aol.com .

Feel free to copy/share/print this list.

Have a nice day !

Kritter007

Foreign Editions -- Master List

Module code and title reflects the US version of the particular item, for ease of reference. The actual codes / titles printed on the items are listed on the individual Foreign Editions pages; follow the links to them.

United Kingdom

Games Workshop was the early printer / distributor of early TSR material (pre-1980); their material bears a Games Workshop logo on the cover and/or the copyright page. TSR eventually established a "TSR UK" division, which was responsible for not only printing and distributing TSR material in the UK (albeit without a separately identifiable logo), but also with creating modules to be distributed worldwide (B10, UK1 - UK7, etc, all of which bear a small Union Jack flag next to the module code) -- as well as one module never distributed outside of the UK, ST1 Up the Garden Path. The only UK item not published by either Games Workshop or TSR UK was the digest-sized Basic Rulebook (published by Garden City Press).

B1 In Search of the Unknown
B10 Night's Dark Terror
D1 Descent Into the Depths of the Earth
D2 Shrine of the Kuo-Toa
D3 Vault of the Drow
G1 Steading of the Hill Giant Chief
G2 Glacial Rift of the Frost Giant Jarl
G3 Hall of the Fire Giant King
S1 Tomb of Horrors
ST1 Up the Garden Path (exclusively published in the UK)
UK series: these modules are identical to the US versions
Basic Set
Basic Rulebook
Monster Manual
Players Handbook

Australia

Jedko Games has the exclusive right to publish TSR material in Australia.

Set 3: Companion Rules
Set 4: Master Rules

France

In late 1982, TSR published the D&D Basic Set in French, followed shortly thereafter by modules B3 and B4. From 1985 to 1989, the French company Transecom released many of the French D&D translations (the remainder being released by TSR, and later TSR UK). The company was headed by Francois Marcela-Froideval, the co-writer of Oriental Adventures and editor (in 1980) of the first French RPG magazine, Casus Belli (still in press 21 years later!). Transecom has since gone out of business; French D&D items released after 1989 were printed by TSR UK. (Thanks to Slaheddine Kefi for this info).

Germany

Fantasy Spiele Verlags-GmbH (more commonly known as FSV) published most, if not all, of the 1st edition xD&D German translations. From the advent of 2nd Edition AD&D in 1989, up through the mid-1990's, TSR UK published D&D items in German, hiring several staff members from the former FSV. Amigo-Spiele did all of the later material (including the S1 Tomb of Horrors and UK-series remakes), and continues to publish today. (Thanks to Stefan Beate and Adrian Newman for this info).

Italy

Editrice Giochi published all of the Italian 1st Edition xD&D translations. In 1986, Editrice Giochi released the first Italian edition of the Basic Set. Although D&D was never a big hit for the company (which is a large gaming conglomerate, similar to Hasbro), vocal Italian fans served to keep the D&D line alive, bombarding EG with a volume of requests previously unheard of in the Italian gaming industry. In 1989, the Italian edition of the Companion Set was released and, in contrast to the US edition, it contained the AC7 accessory as a special bonus. Eager fans started clamoring for support modules and the Master Set; modules CM1, CM2, and CM3 soon appeared, but the Master Set remained elusive. At the time, TSR was launching 2nd Edition AD&D and had killed off the original D&D line. Editrice Giochi was requested

to publish AD&D at once, eliminating D&D. The Italian publisher disagreed, stating that the Italian market was too young and needed further development. AD&D would remain out of the Italian market for a few more years, when another publisher purchased the rights and released the three core AD&D 2nd Edition rulebooks.

D&D briefly resurfaced in 1990, when TSR released the Classic D&D Game to serve as introduction to RPGs. The box was published in Italian (discontinuing the old Basic Set), and in what some called a "payoff", the Master Set was published too. The introductory box was never embraced by fans, garnering unfavorable reviews because it was deemed too complex for beginners and its system of sheets for 'quick' learning was, according to many, a real mess.

Every publisher in the field toyed with the possibility of publishing in Italian the D&D titles never released into Italian. Unfortunately TSR before, and Wizards of the Coast after, rejected these requests (perhaps fearing competition for AD&D). The project for a moment seemed to have some concrete chance, when new publisher 21st Century Games produced a line of miniature AD&D reprints and announced plans to publish original D&D books in miniature format (in English) and normal format (in Italian). Sadly, the publisher went under and the project went nowhere. (Thanks to [Ciro Alessandro Sacco](#) for this info).

Japan

Shinwa was the publisher of most (all?) of the Japanese xD&D translations. English-language D&D products were first introduced to Japan in the mid '80s when AD&D was at its peak and within a few years translated rulebooks, modules and miniatures appeared. Japanese versions of D&D products always enjoyed a much wider following than their AD&D counterparts. The AD&D rules were too convoluted and the translations were too confusing for Japanese gamers' tastes, and as a result, no Japanese AD&D

products were ever produced. Eventually, due to the overall poor quality of TSR products and because several Japanese RPG's sprang up to steal away Japanese gamers, interest in D&D faded. Finally, video games -- and later, CCG's -- killed off RPG's in Japan by the early '90s. Most distributors and game stores either threw out or sold off all their inventory to make room for new merchandise -- not uncommon since shelf space and stock space is expensive in Japan. (Thanks to Ed Courtroul for this info).

Spain

Dalmau Carles published all the Spanish D&D translations (Set 1: Basic Rules and B-series modules). The AD&D translations were published by Ediciones Martinez Roca. AD&D was not popular in Spain until the very late 1980's, so therefore, the only AD&D items released were for 2nd Edition AD&D and later (thanks to Francisco Aritio and Andrés Otero for this info).

Sweden

Titan Games published all of the Swedish xD&D translations. Apparently, the company had planned to release a complete translation of 2nd Edition AD&D (the Players Handbook was already translated), when they were forced to close down due to heavy competition. Most of this was from the Swedish fantasy RPG "Drakar och Demoner" (Dragons and Demons), which despite the name was NOT a D&D clone. (Thanks to Andreas Landt for this info).

Adventurer's Guild Index

All the adventures below are listed according to their respective series. Each adventure shows the module title, author(s), setting it was designed for (AD&D, SAGA, or Alternity) and the linking product. None of the **Living City** supplement adventures had corresponding products, all were designed for **AD&D 2nd Edition**, and all are set in the RPGA Living City.

Thanks to Rhea Shelley for most of the information on this index, as well as the scans.

Thanks to [Adrian Newman](#) for assistance and for the scan of the Series One **Instruction Booklet**.

Series One (Jan - Mar 1998)

We are guessing as to the start date of this series, based on the timeline of the other sets. It should be noted that all the modules in have a copyright date of 1997. Two of these modules (**Vale of the Dragon Oracle** and **Leviathan's Deep**) were later reprinted in the compilation module **TSR Jam**.

Module Title	Author	System	Linking Product
Instruction Booklet			
Of Varsks and Winter Witches	Sean Reynolds	AD&D Birthright	campaign relaunch

Smoke and Mirrors End of Innocence	David Kizzia J.D. Wiker	SAGA Marvel Super Heroes Alternity Star Drive	unknown Systems of the Verge
---------------------------------------	----------------------------	--	---------------------------------

Series Eight (Oct - Dec 1999)

As far as we're aware, only five modules (plus the Instruction Booklet) were released with this series. [Dragotha's Lair](#) is currently available as a downloadable file from Wizards of the Coast; follow the link.

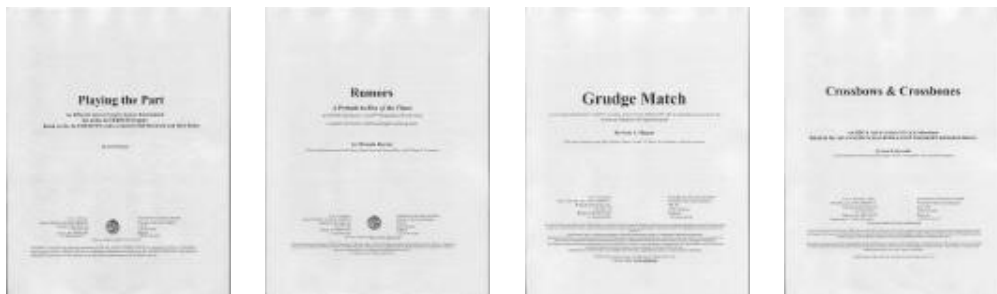

Module Title	Author	System	Linking Product
Instruction Booklet			
Amongst Fungus	Jeff Quick	AD&D Forgotten Realms	Drizzt Do'Urden's Guide to the Underdark
Dragotha's Lair	Bruce Cordell	AD&D Greyhawk	Return to White Plume Mountain
