A Witch's Duty

As Bogle's Night fast approaches, we witches see a change upon the land that our non-magic friends may be ignorant of. In this time of weakness between the realms of the living and the dead, ghosts and spectres start to walk among us.

Most folk think that they only appear on Bogle's Night but ye should keep an eye out for those early birds that want to check in on their descendants and end up a little lost or worse.

The other thing that a witch ought to know is that it ain't just friendly ghosts coming out of the Land of the Dead during this fragile time. Monsters, bad 'uns at that, emerge into the shadows. Most folk take to Guising to fool these spectres but ye may find yerself called upon to use that wand of yours if'n yer not careful.

Oh, an lastly, it is the duty of the witch o' High Rannoc to enter into The Manor and face its shadowy owner.

Do not shirk this duty

High Rannoc has been left alone for centuries thanks to our agreement with those that live in The Manor and I ain't about to let ye ruin it.

Before Bogle's Night falls upon us, ye must head through Weaver's Wood and into The Manor. Find whoever is in charge and strike a deal with them, otherwise they will depart and leave all the visiting spirits trapped here.

To find the keeper of The Manor, you will need to wear a Guise and draw an Ace on The Manor – Guised (pages 21-22). This will prompt you to Strike A Deal (page 4) which must be accomplished before Bogle's Night ends.

A Witch's Other Duty

Beyond the usual fare of saving the villagers from death, disease, and monsters, it is yer greatest duty as the witch of High Rannoc to put on the spookiest Bogle's Night display. Jumpkin Jack-o-lanterns, skeletal assistants, bats, rats, and black cats, whatever you like just make sure that folks leave feelin' scared but satisfied.

And while ye might think this is just some silly tradition – which it mostly is – there is some use to it. A good fright, like a dose of the flu, improves the body's ability to deal with it and by my hat do these people need a good dose of fright every now and then.

Each night during the last Week of Harvest (Autumn), the Guisers will start to arrive at your cottage looking for Treats. If they make it through your display, you will have to give them Treats, as is the ancient accord.

Treats can be gained in two ways:

- Buying 1 Treat for 1 Silver from the village Baker or any other character you think could provide them.
- Using a Reagent that has points of Sweet. Each point of Sweet is equal to 1 Treat.

Each Guiser that makes it gets 1 Treat and you simply **draw two cards** to see how many make it through each day. If you don't have enough Treats for the Guisers, they play a prank on you. Usually something that will take a Downtime Segment to undo. What do they do? How do you feel about it?

The Trick

Making your haunted cottage takes a bit of time but thankfully you're a witch and creepy things are easily found for us.

During each Downtime, you may spend a Downtime Segment to add something spooky to your cottage or the grounds outside. This could be as simple as having your Familiar make noises from a hidden place or as complex as recruiting skeletons from Hero's Hollow, stealing webs from the Weaver's Wood, building coffins, hanging scarecrows, or even casting spells to make it rain or bring the trees to life.

Each Downtime Segment you spend reduces the total value of the Guiser cards by 1. Take time to think about how your Bogle's Night display looks and how the Guisers who come to visit react as they pass through.

Striking A Deal

The Keeper of The Manor is not an unreasonable being and will make some form of deal with you to keep the village safe. When you meet them, draw upon the table below to see what it is they ask for.

You may deny the first two deals but doing so will see you stuck with the third.

If you fail to complete the Deal by the end of Bogle's Night then The Manor disappears and takes with it the way back to The Other World, trapping the visiting spirits in our world until next Bogle's Night.

Until next Bogle's Night, tensions arise between the living and the dead as ideas clash at every turn. Spirits repeatedly, whether by accident or boredom or malice, spook the living. Arguments abound and old feuds are resurrected.

As the year passes, think about how you can help ease these tensions and how characters might change over time.

- A** They want to feel fear for themselves. They will come to your cottage on Bogle's Night as Guisers with a total value of 20.
& Your cottage must scare them away completely or you fail the
2 Deal. How do they react to your decorations? What scares them? What surprisingly doesn't?

- 3** Tell them their name. To find this out you will have to ask around The Manor. You will need a Certainty of 50 to be sure of
& their name. Any time you meet a Character in an Event in The
4 Manor, draw a card and add its value to your Certainty as they help you to piece together bits and pieces about the Manor's Keeper. They won't tell you the name but they can tell you about their past which may help you find the answer somewhere.

- 5** They want you to take one of the Manor Residents and let them
& live with you until next Bogle's Night. Who or what is this
6 resident? Why do they want to live with you? What is it like having a monster as a house guest? How do your patients react to them? What problems do they cause? Do you get on with them? Consider these questions throughout the year.

They want something new, a new resident to be precise. You will have to convince or trick someone to come to The Manor and live there until next Bogle's Night. This could be a villager, a denizen of another Locale, or even yourself.

7 If you choose to go, how do you spend your year? What
& interesting moments stick out in your mind? You don't lose
8 Reputation for missing Ailments cause of this. The Villager's understand.

If you choose someone else, how will they act when they return? How have they changed? Keep this in mind for next Bogle's Night.

They want you to host the Spooky Soiree at The Manor this year. You can spend Downtime Segments to improve the decorations, teach the monsters how to mingle with people, and organise things like food, music, and transport.

9 When the Spooky Soiree comes, draw a card. If the card's value is
& less than the number of Downtime Segments you have spent on
10 the Soiree, the night is a success! If the value is higher, it is a disaster.

How does it go? How do people feel about this new situation? How do you help things along on the night?

The Manor needs maintenance and it falls to you to provide it. You'll need to avoid the residents as you fix the Floating Lights, the Enchanted Instruments, the Living Suits of Armour, and Magic Paintings. You may spend a Downtime Segment to try and fix one of these enchantments. Draw a card, if it is 10 or higher, you fix an enchantment. If it is lower, add 1 to the value of your next attempt. This stacks until you succeed or Bogle's Night passes.

Once you have drawn a card, face the appropriate Manor event.

K Stay with them in The Manor until Bogle's Night while they try
& to win your heart and convince you to stay. You may treat
Joker Ailments as you normally do but must spend all of your Downtime in The Manor. You may still face Events in The Manor on your Downtime.

Tools & Upgrades

Weaver Companion – Cannot Be Bought

If you are fortunate enough to win the trust of a Weaver then they will help keep you safe from their less considerate comrades.

Once per Forage, if the **ALERT** in Weaver's Wood reaches 5, lower it to 3 instead as your companion throws them off the hunt.

Bought Decorations – 10 Silver – Can be bought multiple times

Not everyone has the time to make their decorations themselves, these tacky merchant offerings might lack charm, and scariness, and quality, but they're better than nothing! Right?

You may add this to your Cottage Display (page 3).

It does not cost a Downtime Segment to set up these decorations.

It reduces the Guiser card total by 1, just like any other decoration.

Generic Guise – 30 Silver

While a homemade guise can be as eerie and spooky as you like, these merchant offerings tend to be more... humorous, to be nice about it.

Gain a Guise.

What does it look like?

Treats – 1 Silver – Can be bought multiple times

Boiled sweets, chocolates, mini pastries, mints, lollies, and many other things. Whatever the form they have one thing in common; Guisers love them.

Gain 1 Treat per 1 Silver spent.

Assistant – Cannot be Bought

This creepy helper moves in under the cover of darkness with all of their vile smelling and evil looking equipment. They set up shop somewhere out of the way but seem to always be right beside you when you call for them. Truthfully, they'd be really great to have around if they weren't so... creepy.

Once per Ailment, you can get a Creepy Reagent (page 15) from the Assistant.

Guising

I've no clue where yer from but in the off chance yer not from High Rannoc, let me explain a few key differences between our Guising and the trick treating of the lowlands.

First of all, it ain't just dressin' up for dressin' up's sake. Guising is a tradition that dates back centuries, to the time of shadows when dark spirits and fell monsters walked the land and only by disguising oneself, could a person hope to go unnoticed and unharmed.

Thankfully times are much safer now and Guising is only needed during the end of Harvest when the barriers between our world and the Realm of the Dead is at its weakest. While most folk only see the effect of this on Bogles' Night, when dead family can come to visit, the truth is that there are dangerous things out there and you would be best off blending in.

You can buy a Guise (page 6) for 30 Silver.

Or

You can make one yerself by spending 3 Downtime segments on it.

Trust me, you don't want to cheap out on this.

Once ye have a guise in place, ye'll be able to enter the Manor In The Woods (see The Manor – Guised on pages 22 – 23). Of course, if yer feelin' brave, ye can go in without one as well (see The Manor – Un-Guised on pages 24 – 25)

Ye'll also be able to go Guising around the various villages and this is where the other difference comes in. In the lowlands they just call out "trick or treat" as a sort of cute threat but up in High Rannoc ye've tae earn yer treat. Give them a story, a song, a magic trick, or some other display tae amuse and ye'll get some sort of reward. Draw a card after each Downtime Segment spent Guising and gain Treats equal to its value.

Who gives the best Treats? Who do you go Guising with? What is the atmosphere in the village like?

Likewise, ye'll find folk traipsing down to your door, expecting ghoulish frights and theatre. It's a bit of a tradition – and one I expect ye won't let die – that the village witch has the scariest house on Bogles' Night. So make sure you're stocked up with treats and think out your own "haunted house" experience for all the children and adults that come tae ye (see *A Witch's Other Duty* on page 3).

Mystic Services

When you meet the Mysterious Mystic in The Manor (pages 22 – 25) then you may pay for One of these Services each time you visit.

For each of these services, consider how their magic differs to yours. What rituals are involved? What do they ask of you during?

Fortune Telling – 10 Silver and a Drop of Your Blood

Unlike the folksy traditions of the villagers, the Mystics fortune telling tends to be a bit more direct. Dare you let them cast the bones and tell your future?

Take the top 4 cards from the deck and lay them out facing up, you may use these to predict the next 4 Events.

If you choose to go against your future, choose which cards to put to the bottom of the deck. Once you run out of drawn cards, return to drawing cards as normal.

Divination – 10 Silver and a Reagent

Mystics focus on showing their customers what they want or need to see. In this way they can be very helpful to witches as their crystal ball can reveal the location of otherwise hard to find Reagents.

Choose a Reagent and lower its Foraging Value to 3 until the end of the Season or until you collect it.

Revealing The Truth – 10 Silver and Something Taken To Be Burnt

Whether through intentions good or with a prying eye, this Mystic can show you a secret truth about someone of your choosing. Simply bring a token that you've taken and see the truth behind closed doors.

This is a way to explore any suspicions you might have about certain Villagers or Locale characters. What do you suspect them of? Were you right? What do you bring as the token to be burnt in the ritual? How did you get it?

A Wish – Free

Anything your heart desires but be warned witch, the price may be more than you can bear.

Anything you want to happen, happens but by Bogle's Night someone dear to you dies in an ironic way related to your wish. Who is it? What happens? Does anyone know you're to blame?

10 – Q) Resurrection

Requires: Golden Bark & Borrowed Time & Water Of Life – Timer: 10

Woe betide those who try to cheat Death itself, or so the old crones crow. Truth be told, heroes come back all the time and while it can be a bad idea, sometimes Death can shove it where the sun don't shine.

Consequence: They stay dead and Death does not accept rematches. What words of wisdom does Death share with you afterwards?

Extra: On top of the Reagent requirements, you will have to challenge Death itself. You may choose what the challenge is but failure means the Ailment fails. To determine who wins, draw three cards for Death and one for you. Two if you're willing to put something of yours on the line, years off your own life tends to be a favourite. Whoever has the highest card wins.

Resurrection is the only Ailment ye'll come across that is 100% optional. Heck, most folks'll respect ye for not doing it as it quite often reeks of necromancy and the requirements aren't pretty.

Expert Ailments Cont.

K) Wicked Streak

[WART ★★ ★★] [SKIN ★★ ★★] [SENSES ★★ ★★] [MOOD ★★ ★★]
[CURSE ★★ ★★] – Timer: 12

This one affects you and don't go ignoring it! As Bogle's Night approaches, the ailment grows in power. It starts with a cackle, then a wart, and next thing you know your skin's green and you're trying to eat little Jimothy.

Consequence: Choose one:

1) You become a Wicked Witch and disappear with The Manor. Take on the role of a new replacement until next Bogle's Night where you can attempt to cure your predecessor of their Wicked Streak Ailment.

2) Word spreads quickly and a group of good witches show up to cure you. You have to keep moving to evade them, choose a Locale to start in and draw events until you get a ♥. Once you get a ♥ you must move to a different Locale.

Until they catch you, how does your cruelty show through? What wickedness do you unleash during events? Do you develop any evil goals? How do you work towards them?

Assign any card value (A – K) to the witches hunting you. Whenever you draw a card for an Event, draw a second card and if it matches the card you chose then the witches catch you and administer the cure. Otherwise you evade them. Ignore the regular event mechanics, you are no longer bound by them.

Lose 2 Reputation for each Event until you are caught.

Dark Wood Reagents

Dark Wood refers to the Weaver's Wood in this Expansion

Weaver's Silk ★★ – ANIMAL

The Weavers flick these abrasive hairs at their prey in order to blind them and make an easy kill. Wear goggles, be loud, and you can get these quite easily.

Strand of Fate ★★★ – MAGIC – Dark Woods (13)

Requires a WAND to Collect

Every now and then, when the conditions are right, the Weaver Queen spins a glistening web that holds the fate of one unlucky soul. Interestingly, the fates she weaves are not always grim nor short.

Borrowed Time ★★★ – MAGIC – Other World (12)

The Village

In this spooky time of year the village of High Rannoc and its various neighbours take to the time honoured tradition of Guising. Monstrous outfits, gruesome decorations, frightful jumpkins, and pranks by children and adults alike.

On the plus side, if ye don't take yerself too seriously, there's plenty of sweets to be had for a scary witch.

-  **A** You notice that the children of the village are running away from you. What are they saying? How do you feel about this? Do you take any action?

7 Whenever you're out Foraging, draw a second card for each Event. If it is a Face Card, you find one of the missing spirits! What were they doing? How do you convince them to return to the village?

8 A spirit has returned whose family aren't around anymore or who haven't made it back this year. Do you keep them company? Do you have any news you can pass on to them?

9 Some of the villaers invite you to sit round the campfire with them. Its clear that they want you tell a scary story. What story do you tell? How do they react?

The Other World

Just as the dead can only enter the land of the living as spectres, so it is for you in the land of the dead. Those who belong in this world speak fondly of vibrant blue forests, silver plains and fields of many colours but for you all living things appear pale and ghostly. The wispy, translucent trees, grass, and people have a certain beauty to them but it is plain this isn't your world.

A You have a stunted conversation with a friendly spirit. What do you talk about? What difficulties are there in communicating as you both see each other as spectres? Are there any misunderstandings?

Each time you get this result, consider how you both get better at communicating across the veil of death.

2 People react to your presence with fear, why? What did you do to spook them? Was it on purpose or an accident? How does it feel being the ghost for once?

3 Animals are often lauded for their ability to see beyond the veil of death and it seems it works in reverse as well. What type of animal is it? How does it react to you?

4 You see some spirits practising a lost art/ speaking a dead language/ playing a forgotten game. What is it they're doing? Do you make notes to help revive it back home?

5 The dead are having their own Bogle's Night celebration, how does it differ to your own? What can you make out as a spectral spectator?

6 You feel a tug on you as though a life-line is being pulled just before you reappear in the village. Who pulled you out? Why?

7 The Other World is full of fallen heroes but bumping into one who can see you is rare indeed so lucky you. Who have you met? What legendary deed are they known for? What do you ask them about their deeds? Do they live up to the tales about them or are they different in person?

8 You see something beautiful even in its shade form, what does it look like to you? What do you think it looks like normally?

9 You overhear some spirits saying they aren't passing through the gate this year. Why? Do you try to convince them?

10 You learn a secret about a Village or Locale's history. What do you learn? How did you learn this?

J A spirit greets you and offers to let you see the world as they see it, just for a minute. How do they manage this? What do you see? Who is this spirit?

Q Death appears to you, as sudden as it often comes, it asks what you're doing here. If you have collected any Reagents here, it questions why you are stealing from the dead. What reason do you give? How does it respond?
Each time you get this result, consider how Death views your presence. Are you a trespasser or a visitor?

K Even through the veil of death, you recognise someone you know. If they were Called Upon (page 10) then you may guide them home. Otherwise, if they were someone you knew, how are they getting on? How do they seem emotionally?

Guiding The Dead

Afore ye go off galavanting around High Rannoc dressed as a Wizard and acting like yer so original, there is one last duty to be aware of.

The people of High Rannoc have grown accustomed to the idea of their loved ones coming back but the truth is that not all spirits know the way. So it falls to you, dear witch, to head off into The Other World and find these lost souls and guide them back.

It's an easy enough task, just think of them like Reagents. The only real difference is that ye guide them home, talking to them and learning about 'em rather than shoving them in yer basket.

Ye don't have to get all of them but people'll be happier if ye do.

Ye **gain 1 Reputation** for each spirit returned.

A Lost Pet – Other World (5)

Who has asked you to find their pet? What type of animal is it? What is its name?

A Parent – Other World (7)

What happened to them? How long have they been dead? What is the first thing they ask you?

A Friend – Other World (9)

How did they die? What stories do they tell you about the villager who asked for them? What new stories do they have about this world?

An Ancestor – Other World (11)

What did they do for High Rannoc in their day? What still bears their mark? Who are they related to?

A Lover – Other World (13)

The sad truth is that they aren't that hard to find but we all weave lies to protect those we care about. Heartbreak needs time to mend and seeing old flames returned is rarely healthy for anyone involved.

Once Bogle's Night has come and gone, any spirits depart back to The Other World, unless you fail the Manor Keeper's Deal. If this happens, any spirits you have brought through remain. How does this affect the people involved? Is there joy? Regret?
