cutting on the bias

WHAT IS BIAS CUT?

Bias cut means cutting the fabric on a 45° angle (diagonally) across the weave. It gives the woven fabric more fluidity and stretch, and gives a beautiful drape to the garment.

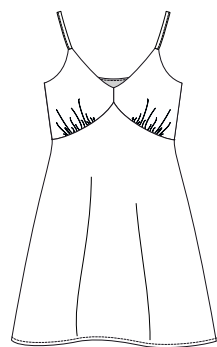

On the pattern pieces, the bias is indicated by diagonal arrows. These arrows will be parallel to the straight grain when laid on the fabric, ensuring that the pattern pieces are cut on the bias (at a 45° angle).
