

Bukit View Primary School Touchpool Ambassadors

Underwater World Singapore welcomes Bukit View Primary School as the first school to adopt our exhibit. The school has donated \$3000 to our Marine Conservation Fund, as part of the 1-year Touchpool Adoption project.

As part of the whole collaboration, 7 teams of 30 Primary 4 to 5 students have been selected by the teachers of the school to be our Touchpool Ambassadors.

Having gone through a training session by our education staff early this year, these young Touchpool Ambassadors developed their very own script for educating our visitors about the animals in the pool as well as the correct way to handle them.

The teams of Touchpool Ambassadors would come to UWS once or twice every month to educate our guests, as part of their community involvement project.

During the official launch of the adoption, 100 marine ceramics magnets, intricately handmade by the students, were given as surprise gifts to the lucky visitors of the Oceanarium to raise their awareness of this meaningful collaboration.

In addition to having increased their knowledge about and love for marine life, these young ambassadors have also gained confidence, improved their skills in public speaking, and simply loads of fun through this adoption project.

Teachers from schools that wish to find out more on how you can get your students involved in such adoption projects with UWS, may contact our Education department at 6275 0030.
