

THANKS-GIVEN TREE

**Add a leaf of thanks
each day until your
pretty tree is filled**

 Ask an adult to help you cut out this leaf template.

-  1. Ask an adult to help you trim a craft branch (available at craft stores) into a tree shape.
2. Fit a piece of florist's foam into a decorated container, and push the tree trunk into the foam. Cut a piece of colorful paper to cover the foam if you want.
3. Cut leaves out of colorful paper. Each day before Thanksgiving, write on a leaf something that makes you feel thankful. Attach the leaf using craft glue, and let dry.
