

Pal Portrait

check list:

1. pictures of a friend or yourself (including full body and close-up shots)
2. scissors
3. white glue
4. cardboard
5. black paint
6. cardboard tubes
7. masking tape

Arrange a photo shoot with your friend and take pictures of them, including close-up shots of their eyes, smiles and hands. Select your favourite shots and print them out.

1

Paint a large, square piece of cardboard black.

2

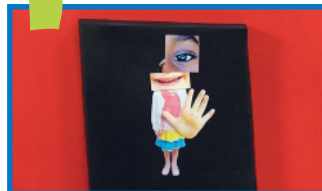

Glue a full body picture to your canvas.

3

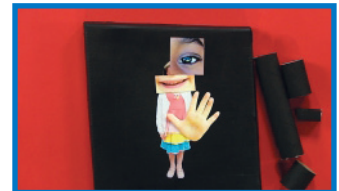

Use scissors to cut out the close-up pictures that you want to include.

4

Arrange the pictures any way you want.

5

Now, cut cardboard tubes into various sizes. You can also paint the cardboard tubes black to match your canvas

6

When you're ready, put the close-up photos on top of the cardboard tubes to help them stand out. Move the cardboard tubes around to help design your picture.

7

Once you're happy with the design you can either tape or glue everything into place.

Awesome! This is definitely not your typical school picture. With a little help from Artzooka, you've changed a regular photograph into a popping pal portrait!
