

Alien Face

check list:

1. 2 identical pictures of a friend (printed out, 8.5 x 11)
2. coloured markers
3. 2 pieces of white paper (8.5 x 11)
4. clear plastic tape
5. scissors
6. glue
7. cardboard (8.5 x 11)

1

Print out two black and white identical photos of your friend. Use coloured markers to draw a funny alien face on one of the pictures.

2

Fold a piece of white paper in half, lengthwise, then fold it in half again. Fold it in half one more time.

3

Open up the paper. See all the creases? Fold the paper along the creases like an accordion. Fold the first crease, flip the paper over; then fold it the other way. Keep flipping and folding until you get to the end of the paper. Do the same to a second piece of white paper.

4

Put the two pieces of paper side by side, just like in the photo.

5

Flatten the paper ends down and push them together so they touch. Make sure the ends don't overlap, though! Tape the ends together. Now you have one big piece of accordion paper.

6

Take the non-alien photo of your friend, and fold it the same way you did to the white paper in Step 2: in half once, then twice, then a third time. Open it up.

7

Use scissors to cut along all the fold lines. Be careful not to mix up the order of the cut strips! You will be taping them to the accordion paper.

8

Lay the strips out so you can see your friend's face. Take the first strip on the left, turn it over; dab glue on the back, then stick it to the accordion paper (on the first rectangle on the left).

9

Glue on the next strip, but not right beside the first one! Skip a space like in the photo.

Here is an example of what the accordion paper should look like once all the strips are glued into place.

10

Follow Steps 6 and 7 and do the exact same thing with the alien photo, except glue the strips on all the blank white spots on the accordion paper. Weird, but cool!

11

Glue the ends of the paper to a piece of cardboard.

12

When your friend comes over; show him or her the human side, then turn the cardboard slightly to show off the alien side. Far out!
