1 Cut the cardboard in a circle shape that is bigger than your jar lid. Place the jar upside down on the middle of the cardboard. Use a pencil to trace it.

2 Use scissors to cut strips around the circle to the traced pencil line.

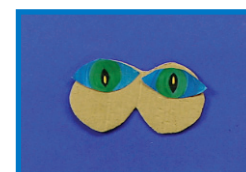

3 Centre the cardboard on top of the lid of the jar and fold the strips down all the way around the jar.

4 Wrap masking tape around the edge of the cardboard. The cardboard lid should fit perfectly on the jar!

5 Create a cat's face by cutting a piece of cardboard. It can be any shape you want.

6 Use paper to make cat-shape eyes and use your markers to colour them in. Cover the cat eyes in scotch tape to make them glisten! Tape the eyes onto the face.

7 Make fat cat cheeks by cutting a craft foam ball in half. Tape the cheeks onto the face.

8 For the nose, cut a piece of egg carton and tape it onto the face.

9 Put masking tape on the back of your cat face and tape it onto the front of the jar lid.

10

Fold some newspaper to make a pair of cat-shaped ears and tape them onto the cat's head.

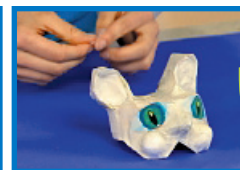

11

Crumple some newspaper into two small balls and stuff them into each of the cat ears.

12 Now that everything is in place, cover the whole head with masking tape. It will make it strong and easy to paint. Be careful not to cover the eyes.

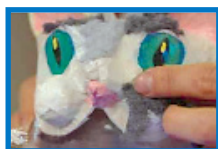

13

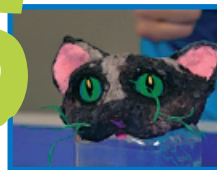

14 Paint your cat's ears and nose any way you want.

15

Time to give your cat some fur! Brush a thin layer of white glue onto your cat's head and press the dryer lint on to make sure that it sticks to the glue.

16

Once the dryer lint is in place, you can add a layer of glue on top of it to give your cat's fur some shine.

17

Once it's dry, add treasures to your jar!

it's fun to Artzooka jars!
