

Frog Shoelace Ornament

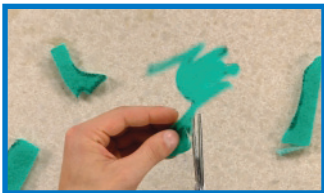

check list:

1. green scrubby
2. marker
3. scissors
4. white glue
5. fun foam

1

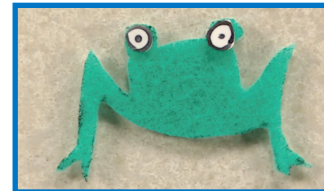

With a marker, draw the outline of a frog body on a piece of thin green scrubby.

2

Use scissors to cut out the frog's outline.

3

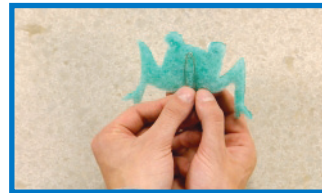

Cut circles out of fun foam and add eyeballs with the marker.

4

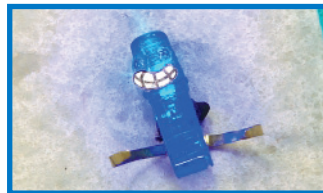

Use the same fun foam to cut out a set of teeth. Glue the eyes and teeth on.

5

Attach a safety pin onto the back of the frog by sticking it through a bit of the scrubby. Now you can pin the frog to your shoelaces.

6

Make as many different creatures as you want, and attach them to your shoelaces. Can you tell that this character is made out of an LED light?

Take a pair of boring old shoes and Artzooka them with your very own crazy creature creations!
