

Juggling Balls

check list:

1. plastic sandwich bag
2. uncooked rice
3. small elastics
4. scissors
5. balloons (6 red, 3 yellow)

1

Find a plastic sandwich bag and some uncooked rice.

2

Pour some rice into the sandwich bag, enough to form a small ball when the bag is closed.

3

Tightly twist close the sandwich bag so it forms the shape of a ball.

4

To close up the bag, wrap a small elastic around the bag, close to the rice ball. There will be extra plastic bag above the elastic—wrap this plastic around the ball of rice.

5

Use scissors to cut off the neck of a red balloon (the neck is the long skinny part of the balloon). Discard the neck piece.

6

Stretch the balloon over the bag of rice, covering the elastic side of the bag first.

7

The ball looks great, but there's a little hole where the bag and rice peek out. To cover the hole, cut the neck off another red balloon, and stretch the balloon over the hole in the ball and around the bag of rice.

8

You've made a red juggling ball! To Artzooka the ball, use a yellow balloon. Cut the neck off the yellow balloon and discard. Make two little cuts in each side of the yellow balloon and stretch the balloon over the red ball.

9

The juggling balls look like they have polka dots! Make two more balls and get juggling!

For more polka dots, make several tiny cuts in the yellow balloon!
