

Banana-mation!

check list:

1. banana
2. roll of tape
3. digital camera
4. stack of books

Need help?

Watch the video:
www.cbc.ca/kidscbc/artzooka

Place the banana in the tape roll so it can stand on its own.

Stack the books about an arm's length away from the banana and set your camera on the books.

3

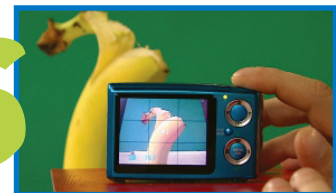

Adjust the height of your camera by adding or removing the books so you don't see the roll of tape.

Take a picture.

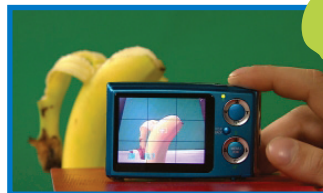

Carefully peel back the banana peel just a little bit.

Take another picture!

Peel the banana a little bit more.

Take another picture and repeat the process until the banana is peeled.

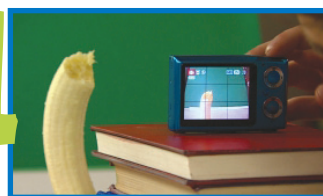

Once the banana is completely peeled, take a bite. Yummy! Now take a picture.

10

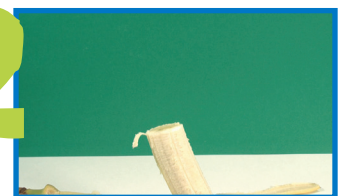

Take another bite.

11

Take another picture.

12

Repeat this process until there's no banana left.

Ta-da - you now have a stop motion banana-mation.

Play the photos as a slide show on your computer or your digital camera! Better yet, plan a movie night, invite your friends and family and show off your banana-mation. **Lights, camera, Artzooka!**
