

check list:

1. cardboard tubes; different sizes
2. scissors
3. masking tape
4. recycled juicebox
5. 2 straws that bend
6. paper towel
7. glue mix (white glue mixed with water)
*you can also use papier-mâché paste
8. paintbrush
9. paint

Make papier-mâché paste!

Mix 1/2 cup of flour with 1 cup of water and add a pinch of salt. Mix well.

1

Find three cardboard tubes: one for your Artzooka pal's body and two for its legs.

2

To fit the legs onto the body, pinch the top of each tube and make a rounded cut.

3

Use masking tape to tape the legs to the body. Don't forget to tape the back part, too.

4

Cut a small piece of cardboard tube the same way you cut the legs. This will be the neck. Tape the neck into place.

Open the flaps of a recycled juice box. Use your scissors to cut triangles on every corner of the juice box.

5

6

Fold the flaps inside on each end and tape. The head should look like a hexagon shape.

7

Tape the head into place.

8

To make alien eyes that poke out, cut the top of two straws that bend. Add masking tape to each straw top – those will be the eyeballs

9

Cover the whole thing in masking tape and then cover in papier-mâché. Set aside to dry.

10

Once your Artzooka pal is completely dry, you can paint it any colour you like.

And there you have it...a fun, wacky Artzooka pal that you can hang out with when your other friends are busy!
