# 1

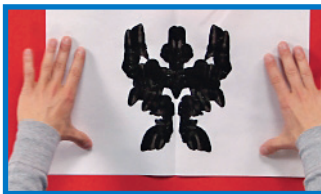

Dribble paint blobs onto the page. You don't need much paint because it will go a long way.

# 2

Fold the paper in half and press it down.

# 3

Unfold the paper to reveal your splatter design. Wow! Now, set the painting aside to dry for a couple of hours.

# 4

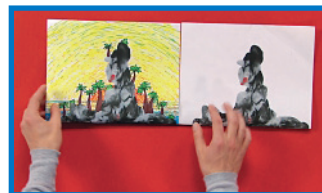

Once it's dry, take another look at the painting. What do you see? Can you turn it into something else? This one looks like a cat.

Use an oil pastel to add to your design. On this one, you could add whiskers to really give it a cat-look.

# 5

Sometimes, the same splat can turn into two different creations.

Be as creative as you want and add whatever you like to your splat painting.
