

Wiffle Piggy

check list:

1. white wiffle ball
2. white bottle cap
3. clear tape
4. big fat straw
5. scissors
6. pink stocking
7. small elastic
8. small circle stickers

1

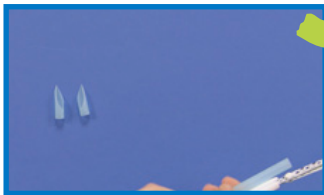

Tape a white bottle cap onto a white wiffle ball. Don't worry if the tape is a little messy; the most important thing is for the cap to be taped tightly in place.

2

To make ears for the piggy, cut off the end of a big fat straw. The end piece should be about two fingers wide.

3

Cut diagonally across the small piece of straw so you have two small, pointy piggy ears.

4

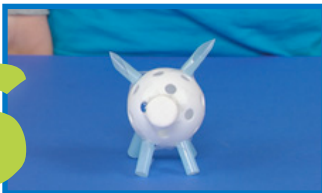

Take the big fat straw again and cut four piggy feet. Make sure the feet are the same size!

5

Use tape to attach the ears to the top of the wiffle ball.

6

Tape the four feet to the bottom of the ball. The piggy can stand up on its own!

7

You've made the shape of the piggy, but it still needs skin. Find an old pink stocking and cut off the foot end.

8

Turn the stocking inside out and stretch it over the piggy's entire body. Make sure the stocking's seam is stretched across the bottle cap. The seam will be the piggy's mouth.

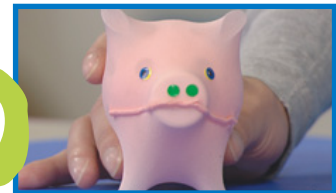

9

There's extra stocking at the back of the pig. Twist an elastic along the extra stocking to form a piggy's tail!

10

Add details to the piggy's face. Use stickers for eyes and nostrils. Isn't he cute? Oink, oink!

what other animals can you Artzooka?
How about a bird or a wiener dog?
