

Bear cave

check list:

1. cute picture of a sleeping bear
2. glue
3. 3 pieces of cardstock
4. an old piece of your artwork, like a painting
5. pencil
6. scissors
7. tinfoil
8. green shelf lining
9. purple tissue paper
10. 16 condiment cups
11. glue
12. construction paper (green, yellow)

1

Glue the picture of a cute sleeping bear to a piece of cardstock.

2

To make the opening of the bear's cave, find a piece of your old artwork, like a painting.

3

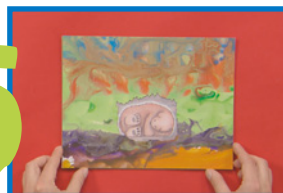

Turn over your artwork and draw the opening of the bear's cave with a pencil. Make the cave opening a jagged line. Be sure the cave is bigger than the sleepy bear!

4

Use scissors to cut out the opening of the cave.

5

Turn over your artwork and place it on top of the picture of the bear (we're not ready to glue it down yet). It looks like the bear is sleeping in a cave!

6

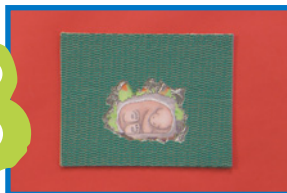

To make it look like the bear is farther back in the cave, you need to add more layers. Make another layer using a piece of cardstock covered in tinfoil. Cut a hole for the cave opening that's just a little bigger than the hole you cut in your artwork.

7

Place the tinfoil layer over your artwork layer. You can see some of your artwork underneath.

8

Make another layer with green shelf lining. This should be a little bigger than the hole in the tinfoil.

9

Add one more layer using cardstock covered with tissue paper with a bigger hole than the green shelf lining layer.

10

To make the bear more comfy, you need to send it deeper into the cave. Remove the layers so you have just the bear picture. Glue a condiment cup on each corner.

11

Spread glue on top of each cup and place your artwork layer over the cups. Press down to make sure it sticks.

12

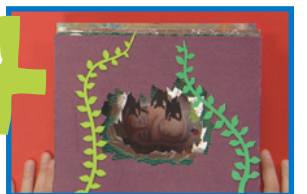

Glue four cups onto your artwork layer. Spread glue on top of these cups and place the tinfoil layer over your artwork layer.

13

Repeat with the green and purple layers until your bear is far back in the cave.

14

Decorate the cave with vines using green and yellow construction paper. Add bats and a ladybug, too!

**Your bear has a cozy, quiet place to hibernate.
Night, night, little bear!**
