

## **Sock Puppets**

You will need:

- Mismatched socks
- Buttons
- Felt
- Glue
- Yarn
- Pompoms
- Craft scraps
- Markers

Recycle and reuse old socks by using them to make sock puppets. Place your hand inside a sock and, using the markers, ask your child where he or she thinks you should mark places for eyes, a nose, a mouth and so on. Help your child select from the available materials and glue or sew them on for facial features. Decorate with yarn hair, pompoms and other available scraps. Children can have extra fun making the puppets into their favourite character from Bob the Builder. Use a yellow, red, green, blue or orange sock to make one of Bob's machines or make a Bob, Wendy or Spud puppet. Use the puppets to put on a puppet show acting out a favourite episode of Bob the Builder or making up your own new adventure for the team!
