

## Homemade Play Dough

You will need:

- 1 ½ cups salt
- 3 cups water
- 3 tablespoons cream of tartar
- 3 cups flour
- 3 tablespoons cooking oil
- Food coloring

Mix all the ingredients together in a large pot. Cook and stir until dough leaves the sides of the pot. Knead as soon as the dough is cool enough to handle.

Children enjoy helping with this recipe but need close adult supervision. The dough will last for several months if stored in a tightly sealed container or plastic bag. You and your child will have fun creating with dough!
