

Be a Painter

You will need:

- A can or bucket
- Water
- Paint brush

Give your child a bucket (or coffee can) of water and a paintbrush (a 3" – 4" size brush is especially fun). Show your child areas outside where he is allowed to "paint" (sidewalks, walls, fences). Help your child notice how quickly the "paint" dries on a sunny day. Why doesn't it dry as quickly in shady areas?
