

## Indoor Fun!

### Let's Talk

Children always enjoy one-on-one time spent with their parents. Take some time each day to talk about what they have been doing, what their day has been like and what has made them happy or sad. Talking with your child helps stimulate language development and introduces new vocabulary. Listen carefully when your child talks so that they know you are interested in what she has to say. Spending this quality one-on-one time with your child will help make her feel very special and help develop a positive self esteem.

After completing some activities, talk with you child!  
Here are some suggestions to get you started!

What kind of weather do we see during spring time?  
What do you like to do outside on a sunny spring day?  
What do you like to do inside on a rainy spring day?
